

Martineau Recruiting Technology, Inc. – Who We Are

Although founded in 2000, Martineau Recruiting Technology is essentially a new name for a group of experienced recruiting professionals. The firm's principals were employees of Dunhill Professional Search of Winston-Salem for 17 years and were consistently ranked among the top recruiters within Dunhill Staffing Systems national organization. The firm, while part of that network, was independently owned and operated by Bob Martineau.

Martineau Recruiting Technology's senior consultants have more than 37 years of experience in the I.T. Recruiting and Placement. That experience includes placements with clients located throughout the Southeast and Middle Atlantic States, covering firms in various areas of manufacturing, banking, insurance and consulting. We work positions from Data Warehousing, DBA's to Project Leaders and Managers in Technical Support, Application Design and Development in Web, Client Server and Mainframe environments.

Our Permanent Placement service includes; *Referral Based Recruiting*™, *in-depth candidate qualifying, screening and reference checking.* These services are conducted on a contingency basis. This means that our client's only incur fees once we have successfully recruited the ideal candidate and the client company hires that individual and places them on their own payroll. We are true specialists focused solely on the recruitment, screening and placement of Information Technology professionals.

Our Staff Augmentation Services *are available through Consulting, Contract as well as Contract to Permanent transitions.* This combination of offerings makes it economically feasible for our clients to access our full compliment of recruiting and screening services whether their need is full-time and permanent or simply short-term and project based.

With trained, skilled I.T. professionals in increasingly short supply, Martineau Recruiting Technology is an ever more important part of the hiring picture in all phases of business and industry.

We truly believe that Martineau Recruiting Technology is your Partner in Professional Search.
